Applicant wishes to thank Examiners for their courtesy in granting the interview, held on November 6, 2006.

Claims 1-15 have been amended, whereby the cited art is further distinguished. Claim 1 now includes the following which contribute to the novelty and unobviousness of the invention, and which are believed not suggested in the totality of claim 1:

- b) an insert pillow received in the sling, and to be retrievable from the sling, the pillow having elongated block shape and having adjustable hook and loop attachment to the inner side of the sling,
- d) the sling having forwardly extending panels which are foldable to be connectible together along upper extent of the sling, to close the sling over the user's forearm and pillow, and to

allow upward opening of the sling to  
release the user's forearm and the  
pillow,

- e) there being a user's forearm receiving  
pocket formed between the pillow in the  
sling and outer extent of the sling  
facing inwardly toward the pillow, and  
defining one of said panels.

Burkhead is not suggestive because his pillow  
is outside his sling, in pouch 50.

Padden is not suggestive because his sling  
flaps 30 are not connected together spaced above his  
pillow, for adjustment; and his pillow does not have  
block shape, but is L-shaped.

Other cited art appears even less pertinent.

In view of the above changes and the  
interview, reconsideration and allowance are  
respectfully solicited. A call to Counsel to discuss  
any matter is invited.

Respectfully submitted,
